COINS OF THE TWENTIETH CENTURY

A special list of coins offered for a limited time only. Each coin is numbered according to our recent publication, COINS OF THE WORLD, which lists all the coins issued in the twentieth century.

EDITED BY STUART MOSHER

OUR APPROVAL DEPARTMENT

Aside from the coins which we have in sufficient quantity to advertise in COIN TOPICS, our stock includes a varied selection of both inexpensive and rare coins. We are always pleased to send such coins on approval to a collector who has established credit with us. Those who have not sent us their credit ratings are invited to do so. We will accept a rating from your bank or one of the merchants with whom you deal.

While it is possible to form a worthwhile collection by buying coins unseen, we believe that a collector would rather examine a coin before adding it to his collection. Our approval system will enable you to do this. When you receive approval lots from us you are under no obligation to make a purchase. All we ask is that you report on the lot within seven days, promptly returning coins in which you are not interested.

CONDITIONS OF SALE

Each piece is guaranteed genuine. We have been careful not to overrate the condition of any coin. In instances where we have on hand only one or two pieces of the coins listed, the orders first received are filled. We cannot guarantee to supply others at the same price.

The condition of a coin is expressed as follows:

M==MINT—A new coin never in circulation.

V.F.=VERY FINE—From circulation but no signs of wear.

F==FINE Slightest sign of wear but still an attractive piece.

V.G.=VERY GOOD—Somewhat worn but still desirable.

G==GOOD—Worn but type all clear.

POSTAGE

Unless otherwise stated, we pay the postage on all coins and books bought from us. Postage on the EASY DISPLAY SYSTEM is extra. Insofar as possible, all orders are filled on the day of receipt.

TERMS

Net cash in advance. We prefer to receive stamps in payment of orders for a dollar or less. Any items found unsatisfactory may be returned within five days. Make all remittances by bank check, postal or express order payable to Wayte Raymond, Inc. Do not send coin or currency by unregistered mail.

THE COIN COLLECTOR'S JOURNAL

Published Quarterly

WAYTE RAYMOND, Editor

STUART MOSHER, Associate Editor

Every collector should subscribe to this important numismatic publication. Each issue contains a complete article of real importance as well as an installment of some extensive work. The April issue, just published, illustrates and describes all the political tokens of the Hard Times series. A biography of Andrew Jackson, and additional notes on the tokens by Alfred Z. Reed; and the first installment of The Silver Dollars of North and South America by Wayte Raymond. It was the original intention to publish this work in book form to sell at several dollars a copy. But before it is offered in book form, every reader of the JOURNAL will be able to read and own it. This is the first time such a list has been published and it is an extremely important contribution to numismatic literature. All the types are illustrated and values given for the commonest mint or date of each type. The April JOURNAL illustrates and describes fifty coins of the series. We expect to complete the work in four issues.

So that you may own the complete article, send in your subscription to start with the April number. We can supply this issue to a limited number only.

**THE MOST IMPORTANT NUMISMATIC
PUBLICATION OF MODERN TIMES**

COINS OF THE WORLD

No Coin Collector's Library is Complete Without a Copy of

**The Standard Catalogue of
Twentieth Century Issues**

Edited by

WAYTE RAYMOND and STUART MOSHER

This important book, compiled largely by the late Howland Wood, Curator of the American Numismatic Society, represents, the first serious attempt to catalogue the coins of the twentieth century. Since 1900 the countries and their colonies and dependencies that have issued coins total one hundred and eighty-one. Because of the lack of literature on the subject only a small percentage of collectors know these countries or are familiar with the coins that have been issued by them.

Hundreds of coins included have never been recorded or illustrated before for the benefit of collectors. Each coin has been given a number which will enable the collector to arrange his collection in a systematic manner. The book describes over 3,200 different coins and lists the various known dates and mint marks. The principal types, numbering about 1,200 have been illustrated in half-tone. The values given have been arrived at by a careful study of the current coin market and with the co-operation of coin collectors and dealers throughout the world.

The publication, aside from being necessary to the coin collecting fraternity, will be invaluable to libraries, schools, and other educational institutions.
